

Employers

SuperStream makes
super simple

Key dates

What employers are saying

≤ 19

If you have 19
or fewer employees
you must be
SuperStream-ready
by no later than
30 June 2016

"I was impressed that I could start using SuperStream after one phone call to my super fund. They talked me through the set up then and there. I can now pay super for all four employees via one website, not four. So now I pay super in three minutes, not thirty."

Nathan, Café Owner

"I'm flat out running my salon. So I asked my bookkeeper to sort out SuperStream for me and he did. Easy."

Megan, Hairdresser

≥ 20

If you have 20
or more employees
you should now be
SuperStream-ready

"Moving all bill payments online was last year's resolution. Super was the only thing outstanding. The Small Business Superannuation Clearing House was the answer for us. It was easy to put in place and it's freed me up to work more on the business."

Jennifer, Office Manager

With SuperStream, super

Is electronic and standardised

Can be done for all your employees
through one channel

Is easier and will save you time

SuperStream

What you need to do

SuperStream

1

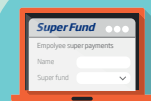

Choose an option

You can use:

Your payroll system

Your super fund's online system

A super clearing house

You can also ask your accountant or bookkeeper to help you with one of these options

Check that your option is SuperStream-ready

2

Collect information

You need this key information on your employees:

Tax file number

TFN 000 000 000

Unique super identifier

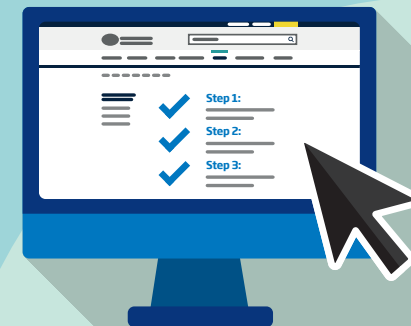

USI 0000000000000000

Once you have the information, enter it into your system

3

Start SuperStream

Start as soon as possible and save yourself time
